

Accident History Of Dulal Saha

On the 6 June, 2022 I was walking along the road. Suddenly, a autobike from the opposite side comes with full speed and pushed me aside. Instantly, I lose my sense.

When I get back my sense, seems i am getting up from sleep but then I realise that a major portion above of my right eye gets cut and bleeding from that area.

Then I went to a doctor keeping press on the injured area and Doctor Observed that injured part was well enough.

Primarily, He gives me treatment and seems my injured sew my injured area. The doctor further says that the eye was out of danger but the nerve may gets cut away. then I was treated by a dentist who set up two leafs on the place of bone.

He also suggest me to put off the leafs if there is no trouble.

Present Problem of right eye and some portion of my eye's area

Now, i am in trouble that i cannot move my eye lead and feel numbness from the area of my injured eye and seems to be disordered

i do'nt feel pain in my injured place but seems to me, teeth may gets dropped down from the place.

Besides two teeth more shivers from the right up gums. I feel still numbness for total pears of the outhier side from from eye lead to chin.
